

1. Aluminum, Iron, and Manganese Standards
 - a. What did EPA find out?
 - b. How do these translate into permits
2. Permitted Facilities
 - a. Questions remaining on addressing lack of limits during wet weather events
 - b. Storm water or not storm water permits?
3. Questions and Comments on write-ups
 - a. Executive Summary
 - i. add step-by-step process
 - ii. be sure to discuss everything added and subtracted – table in presentation would be good to stick in here.
 - b. WQS and TMDL Target Values
4. Nutrient write-up
 - a. We will provide this as an attachment
 - b. Be sure to add nutrients to Executive Summary and WQS and TMDL Target Value write-ups.
5. When will we receive a draft?
 - a. Drop-dead dates for materials that we need to provide (nutrient write-up – are there other materials needed from IDEM or EPA?)
 - b. Deadline for turning in the TMDL
6. Next call
